Glow-worm

Keeping Britain Glowing

Keeping Britain glowing

Glow-worm's British-built heating systems have been keeping Britain glowing for over 80 years.

Made in Belper, Derbyshire, our range of innovative boilers and controls provide reliable heating and hot water, whatever the weather.

Their efficient performance will help to lower your heating costs too. But you don't have to take our word for it. We have an 'Excellent' rating on Trustpilot, thanks to thousands of satisfied customers all over Britain.

Rated **Excellent** on  **Trustpilot**

Putting heating in the palm of your hands

Say hello to Glow-worm's brand new MiSet control. With a touch interface and easy-to-use features, you can manage your thermostat with the simple swipe of a finger. Both wired and wireless models are available, and when paired with a reliable Glow-worm boiler, you get peak performance that'll keep your home cosy for years to come.

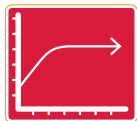

Touch interface

Responsive touch interface allows fuss-free heating at your fingertips

Time programming assistant

Helps you set your timer in a few simple steps

Boiler modulation

Ensures peak performance and optimum efficiency for your Glow-worm heating system
